PROFESSIONAL SUMMARY

Information Science Engineering student with hands-on experience in full-stack development, REST APIs, React.js, Node.js, Express.js, MongoDB, and AI API integration. Skilled in building AI-enabled applications, modular backend services, responsive interfaces, authentication, CRUD workflows, and prompt engineering, with a strong foundation in JavaScript, Java, Python, and SQL.

PROJECTS

AI Chat Web Application | *HTML, CSS, JavaScript, REST API* | 2025

- Developed a real-time conversational interface with dynamic DOM rendering and event-driven message handling.
- Integrated frontend with backend services using Fetch API and asynchronous JSON processing.
- Engineered a responsive UI architecture with CSS animations and modern glassmorphism design.
- Implemented robust error handling and state management for seamless chat interaction.

Cyber Attack Simulation Platform | *React.js, Vite, Node.js, Express.js, MongoDB Atlas* |

- Developing a full-stack educational cybersecurity platform with separate Student and Administrator workflows for safe, controlled, local attack simulations.
- Building REST APIs with Node.js and Express.js using JWT authentication, role-based authorization, middleware, controllers, and modular services.
- Implementing scenario selection, simulation session management, predefined safe events, event and progress tracking, result generation, and MongoDB data models.

AI Code Debugger and Generator | *React.js, Gemini API, Tailwind CSS, PrismJS* | 2025

- Developed an AI-powered platform for multi-language code debugging and generation with syntax highlighting using react-simple-code-editor and PrismJS.
- Implemented structured prompt pipelines, asynchronous API workflows, error handling, session history, Markdown explanations, and developer utilities.

TECHNICAL SKILLS

Languages: JavaScript, Java, Python, C, SQL, HTML5, CSS3

Frontend: React.js, Vite, Tailwind CSS, Bootstrap, Responsive Web Design

Backend: Node.js, Express.js, REST APIs, JWT, Role-Based Access Control, CRUD

Databases: MongoDB, MongoDB Atlas, SQL, Relational Databases

Libraries & Tools: PrismJS, React Markdown, Lucide React, react-simple-code-editor, npm, Postman, VS Code

AI & APIs: Google Gemini API, Fetch API, Prompt Engineering, Async/Await, JSON, API Integration

EDUCATION

S.J.C Institute of Technology

B.E. – Information Science Engineering | 2023 – 2027 | CGPA: 7.8

Gov. SRML Sr. Sec. School

Senior Secondary | 2021 – 2023
